The time table does the work of maintaining the system of the college. A small mistake of the time-table committee can create disturbances in the entire system of the college. Therefore, in this regard, this committee has an important responsibility. The work of this committee is done under a specific methodology. This committee starts its work as soon as the college admission process starts in June. All the department heads are distributed on the basis of last year's time table and informed to make time table of their department and professors. After the completion of the entire admission process of the college, again the admitted data, subject wise student number and hall etc. are reviewed. Where necessary, changes are also made in some halls keeping in mind the number of students. Based on this, then changes are made in the master time table and hall wise time table is also made. At the same time, one file is prepared for the principal, vice-principal, etc. of the college and sent for information and a time table file is also given to the higher and technical education director's office, so that the workload can be facilitated while sending. Hall wise time table is made and pasted on all the halls. Information about when the lectures are starting is also given to the students and professors. Time-table is also reviewed from time to time. As soon as the lectures start, the work of making practical time table and its batches starts, distribution of practical batches of Arts, Science and Commerce and information is given to the students and professors. This arrangement is observed three to four times in the first and second session.

3. The Practice

The work of the Time Table Committee continues throughout the year. At the beginning of the college, a time table is made and distributed along with the admission process. The time-table is reviewed by taking a meeting of the committee. Time table is distributed to all the professors and after giving it a final shape, it is pasted for the information of the students and after preparing the practical time table, it is pasted on the information board of the students. Information about changes from time to time is given to the administration along with the students and professors. The work of the Time Table Committee is a continuous process and has an established pattern. So it runs smoothly without any problem.

4. Evidence of Success

For the last several years, the time table committee of the college is working very well without any disturbance. Due to computer it has become easy and simple to save all the material, prepare master time table and prepare hall wise time table.

5. What are the difficulties encountered and what are the resources required (Problems Encountered & Resources Required)

There are no major difficulties regarding the time table. The committee has been given complete independence by the college administration and there is no interference from anyone. The time table given by the committee is implemented in the entire college. There are no complaints regarding batches, cleanliness etc.

6. Notes

Time table committee is doing very good work smoothly. There is no hindrance from the administration in making it level.
